

## Important information X The picture you took tains private information.

## How do you feel about the notification at first?

- P1: Did not notice it P2: (positive)
- P2: (positive)
   P3: it actually was outside of my view just in the upper corner of my view, therefore hard to read
   P4: Was appearing in my peripheral vision. Need to appear in front of my face

Do you think you would be more aware of private

- P2: no, because I would rely on the software

- P3: propbably yes but only for the direct moment after using the system. in the future i will propably use the awareness again - P4: Yes definitely
